## PARIS SAFE IN PORT

American Liner Arrived in New York This Morning—Flying Squadron Has Sailed.

## WILL MAINTAIN BLOCKADE

Fort Cabanas Demolished—Spanish Spy on Board Monitor Puritan Has Confessed—Invading Army at Tampa—Terror in Santiago de Cuba.

Rio de Janeiro, Brazil, April 30, 6 p. m.—Warship Oregon has just arrived.

New York, April 30.—The American line steamer Paris arrived here this morning from Southampton after a rough passage of seven days, seven hours and 45 minutes. The Paris left Southampton April 22. Captain Watkins shaped his course about north and after a run of 30 miles, headed for home, keeping about 30 miles from the usual course. Captain Watkins had no fear that any Spanish war vessel would catch his fleet steamer, still at night every light on board the Paris was extinguished and dead lights were covered and a strict watch was maintained. The Paris will hereafter be known as the Yale.

Flying Squadron Sailed. A special to the Herald from Washington says: Immediately following the receipt of final information, announcing that the Spanish fleet from St. Vincent had sailed, sailing orders were sent to the flying squadron. Naturally, the greatest secrecy is observed as to the destination of the flying squadron, but it is generally conceded and all probabilities point to the immediate junction of the armored vessels under Commodore Schley and those commanded by Rear Admiral Sampson, and placing this formidable force at a central position, where it can promptly resist an attack from the Spanish fleet, either upon the American coast or upon the blockading squadron surrounding Cuban ports.

Philippine Insurgents Confident. A dispatch to the World from Hong Kong says: It is reported that New Manila has fallen into the hands of insurgents. The rebel leaders in Hong Kong say the insurgents will capture Old Manila within a few days.

Destination Unknown. The United States steamers St. Louis and Havard sailed this morning. Destination unknown.

Another Schooner Captured. A key West special says the Dolphin has captured the schooner Lolle off Havana harbor.

Blockade Will be Maintained. Washington, April 30.—The naval strategy board has decided that the blockade of Havana shall be maintained at all hazards. As soon as the Spanish fleet arrives in the Western hemisphere, Captain Sampson's heaviest warships and cruisers will go and engage it, while the mosquito fleet will continue to blockade the Cuban capital.

Fort Cabanas Fired On.

Key West, April 30.—Incoming boats say the firing by the flagship New York last night was on Cabanas, a small fort about ten miles west of Mariel. The torpedo boats Porter and Ericson were scouting close to the coast when a small battery opened fire on them with a rapid fire gun. The torpedo boats quickly withdrew and notified the New York, which was cruising slowly in a westerly direction. The New York promptly returned the fire, sending in, it is said here, about 12 shots from her six and eight inch guns. The batteries ashore made no response. The fire was by no means in the nature of a bombardment.

Spy on Puritan Has Confessed. The spy on the Puritan, Charles Ygasias, has confessed. The board of inquiry has recommended a court martial. Some reports say the man is crazy.

Many Spaniards Killed. It is reported here that many Spaniards were killed and wounded in the bombardment of Fort Cabanas last night. The American ships were not injured, though one gunner was hurt.

Fort Cabanas Said to Have Been Demolished.

Atlanta, Ga., April 30.—A special to the Journal from Key West, says: Fort Cabanas, a small fortified town 35 miles

west of Havana, was fired upon Friday evening and demolished. The firing began at 6:30 p. m., and lasted 15 minutes. Ten shots were fired from the New York's batteries. The first shot was fired by the Spaniards. The New York and Helena tried to draw a fire from the batteries of Havana and Mariel, but failed.

Invading Army at Tampa. Tampa, April 30.—General Wade received word this morning from the war department to issue only ten days' rations instead of 30 days. The invading army troops are pouring into camp today.

Troops Left Chattanooga This Morning. Chattanooga, Tenn., April 30.—The Ninth cavalry and Twenty-fourth infantry left Chattanooga on special trains for Tampa this morning. So far as learned no more troops will be sent south from here for several days. British Consulate Stoned.

Kingston, Jamaica, April 30.—Cubans who arrived today by the steamer Remus assert that a strong anti-British feeling prevails at Santiago de Cuba. The street crowds cried "Death to the English!" in front of the British consulate and threw stones at the consular work. The authorities placed a guard over the consulate.

Reign of Terror Exists. Advice from Santiago de Cuba say that Pompey, commander general of that division, has proclaimed that every man between 15 and 50 years of age must volunteer in the Spanish service, under penalty of arrest, trial and death. A reign of terror exists in the city and 1,000 leave nightly.

British Man of War Cabled For. The British consul at Santiago de Cuba has cabled his government for a British warship.

Bombardment of Manila Expected.

Hong Kong, April 30.—The Asiatic squadron is now due at Manila. Unless the ships of Commodore Dewey's fleet have met with an accident, a bombardment should be expected at any time. The report that the cable has been cut is not true but all dispatches will be censored and no accurate report of the battle can be obtained until the British consul makes his official report.

American Fleet Not Sighted. Hong Kong, 2:30 p. m.—A steamer has just arrived from Manila, but did not sight the American fleet, which is supposed to be in shore trying to communicate with the insurgents. It is said to be impossible for the American fleet to enter Manila harbor without a battleship or a strong land force.

Spanish Fleet Sailed.

St. Vincent, Cape Verde Islands, April 30.—Spanish transports and torpedo boats sailed this morning.

German Cruiser for Manila. Nagasaki, Japan, April 30.—The second class German cruiser Irene, carrying a crew of over 350 men, has started for Manila, Philippine Islands, to protect the German interests there.

Gigantic Racing Carnival at Albuquerque, N. M., May 4, 5, 6, 7. The race week in Albuquerque, commencing May 4, will be the greatest thing of the kind ever attempted in the southwestern country. Horses are coming in daily from all parts. All the stabling on track is already filled and extraordinary stabling has been erected for 50 more head being erected outside. San Francisco, Los Angeles, Butte City, Anaconda, Denver, Colorado Springs, Kansas City, Dodge City, St. Louis, Dallas and other tracks are all represented, and among the famous stake winners here are Los Primos, Lady Hunt, Pleasanton, Silverado, Theresa K., Scintillator and Bourbon from Frisco; Tommy Tucker, Mary Barnes, Kate Putnam and Hummingbird from the Texas circuit; Melody, Royal Lancer, Rose D'Or, Joe Hart and Sir Kenneth from St. Louis, and Mickle and J. W. Brooks from Colorado Springs. May 4, the opening day, will be a general holiday in Albuquerque, when the Albuquerque Spring Derby for 2-year-olds will be run, with no less than ten entries. Four book-makers will cut in, besides pool sellers. All of the neighboring towns will be represented and it is estimated that not less than 1,000 people will witness the first day's racing. Special one fare round trip passenger rate to Albuquerque from May 3 to 9 inclusive.

Monogram note paper is the correct thing for private correspondence. The New Mexican Printing company can furnish the latest styles of this paper and at very low prices. Call and see samples.

Atlanta, Ga., April 30.—A special to the Journal from Key West, says: Fort Cabanas, a small fortified town 35 miles

## CHASED INTO PORT.

American Yacht Compelled to Seek Safety from Spanish Warships.

Toulon, April 30.—It is said the American yacht Namouna, on her way to Marseilles, has been chased into St. Tropez by the Spanish warships.

Cannot Raise Money for Spain. Montevideo, Uruguay, April 30.—The government has forbidden public raising of money for Spain.

## NEWS FROM WASHINGTON.

Naval Bill Again Sent to Conference—War Department Will Give Out No Information.

Washington, April 30.—An agreement has been reached by which the conference report on the naval bill will be voted upon by the house at 4 o'clock today. The addition of 100 men to the marine corps is the principal point at issue.

The resolution offered by Mr. Cannon, against compensating officers for intervention was agreed to, and the naval bill again goes to conference.

War Department Will Give Out No Information.

The publication today of the date of the starting of troops for Cuba caused the secretary of war to issue orders practically closing the department to all newspapers, and on the doors this evening a paper sign "No admittance" appeared. Secretary Alger says he is determined to prevent publicity of the movement of troops.

## Bread Riots in Italy.

Rome, April 30.—Bread riots continue in various parts of Italy.

Death of Brigadier General Mason.

St. Paul, April 30.—Brigadier General E. C. Mason, United States army, aged 67, died this afternoon of heart disease.

## MURDERERS CONFESSED.

The Men Who Murdered An Aged Couple for Their Money Sentenced to Prison for Life.

Madison, Wis., April 30.—Will B. Estor and William Fuller, the robbers arrested for the murder of an aged couple and the burning of their bodies at Black Earth, Wednesday night, pleaded guilty today. They were sentenced to life imprisonment.

Emperor Denies Having Contributed.

Vienna, April 30.—It is denied that Emperor Francis Joseph has contributed to the Spanish national fund.

## BOSTON FEARS ATTACK.

Inmates of Penal Institutions Being Removed to Places of Safety.

Boston, April 30.—Authorities fear an attack on the city on Monday, and on account of the threatened danger all inmates of the penal institutions in the harbor are today being removed to a place of safety.

## Working Hours Increased.

Topeka, Kas., April 30.—Commencing Monday, the working time of all shopmen on the Santa Fe system will be increased 15 hours a week. This will increase the payroll 37 per cent.

## BANK PRESIDENT MISSING.

National Bank in Massachusetts in Hands of Receiver—Large Sum of Money Stolen.

Washington April 30.—The comptroller of the currency today received a telegram from Bank Examiner Ewer stating that he had taken charge of the Hampshire county national bank of Northampton, Mass. The president, who the examiner says is a defaulter to the amount of \$75,000 or \$100,000, is reported missing. The president of the National bank is also the president of the Hampshire savings bank.

The government examiner arranged through the state examiner for the investigation of the two banks at the same time, making it impossible for those in charge to transfer funds from one to the other to cover up shortage.

## OMAHA EXPOSITION

Magnificent and Exhaustive Display Will Be Made By Counties of New Mexico.

## RESOURCES OF TERRITORY

Commissioner Leeson Talks of the Exhibit Now in Preparation—Will Be in Place by the First of June and a Credit to New Mexico.

The list of exhibits from the various counties of New Mexico for the Transmississippi exposition at Omaha, is now in, and the New Mexican publishes them for the first time.

They represent the pre-historic features, and present educational facilities and diversified industries of the territory and will create great interest in New Mexico's resources among the vast concourse of people who will assemble at the exposition.

General Manager J. J. Leeson states that he has had astounding success in the territory and that the people have responded promptly and liberally to the request for articles of importance in illustrating territorial resources. Mr. Leeson has covered the territory twice and made two trips to Omaha during the three months that he has been engaged in the work. About 8,000 advertising buttons have been distributed in the territory.

The exhibits from the various counties as arranged for, will be as follows: Colfax county: The Maxwell Land Grant company is collecting a cabinet of minerals for display, which will be a miniature Klondike. One nugget of gold, which was found on the Rebel Chief placer grounds at Baldy, weighs 16 ounces. The coal mines of the county will be appropriately represented and fine varieties of wheat, oats and other cereals will complete the representation.

Union and Mora counties: The public schools will set forth their educational facilities to the best advantage and the agricultural and horticultural districts will be represented by a magnificent show.

Bernalillo county: Through the exertions of Hon. F. A. Manzanares, of Las Vegas, a very creditable display will be made, consisting of a collection of minerals and a large and varied assortment of agricultural and horticultural products. The educational facilities of the county will be shown by a historical features will receive considerable attention. A fine collection of Navajo blankets, and Indian basket and hair work will be sent.

Guadalupe county: The agricultural stock growing and wool representation will be especially fine.

Do Arriba, Taos and San Juan counties: The fruit display from these counties is especially fine. The three counties will contribute about 500 pounds of mineral, and the agricultural and educational features will be handled in a praiseworthy manner.

Valencia county: A very rich and valuable collection of minerals is being secured from the Cochiti and Hell canon districts. Agriculture, horticulture and education will be given proper attention and several hundred photographic views of territorial and county institutions, including public schools, churches, fine residences, smelters, steam mills, Indian scenery, etc., will be contributed.

Valencia county: Grains, grasses, alfalfa and horticultural products of the county will be artistically represented. Valencia county is also honored by being the home of the most beautiful Spanish-American woman in New Mexico, Mrs. Sol Luna. Her likeness enters the composite photograph used on the obverse side of the exposition medal.

Sierra county: This county will furnish a mineral cabinet worth several thousands of dollars and representing the rich ore deposits of the county. Horticultural products and the wool-growing industry will receive considerable consideration. Socorro county: Pre-historic features will be given preference by this county

and the description will be illustrated by numerous relics from old mines, ancient pottery, etc. The mineral, agricultural and horticultural products of the section will also be represented fully.

Dona Ana county: The Agricultural College will contribute a magnificent exhibit of New Mexico grains and cereals. The horticultural industry will be represented by a car load of grapes and profusion of other fruits. A fine display of honey will be made and the cannery at Las Cruces will supply a variety of canned goods and preserved fruits.

Grant county: This county has a vast number of mines and the mineral exhibit will be especially fine. The Hearst estate, which controls the Bell & Stevens property at Pinos Altos and has expended \$1,000,000 in the last six months, has taken great interest in the matter and will spare no expense in making a superb showing. The normal school at Silver City will aid in setting forth the educational facilities and the stock and wool industries will be appropriately represented.

Eddy, Chaves and Lincoln counties: These counties will furnish the best representation of the horticultural industry. The Pecos Valley Horticultural society is doing its utmost in the matter and is being vitally assisted by the Pecos Valley Railway company. The editor of Pecos Valley Argus is handling the educational display in an able manner. A. E. Goetz, superintendent of the Eddy beet sugar factory is engaging to represent that important industry and in addition to the display of beet sugar, will show the sugar beet in its various stages of growth and cultivation.

Santa Fe county: The leading exhibit of the territory will come from this county. The collection is under the personal supervision of Hon. J. T. McLaughlin, county commissioner. A superb lot of valuable ores are being prepared, and the agricultural and horticultural representation will be unparalleled. Art, educational and pre-historic features are being gathered and the articles selected will form a very important display. This county is the home of Mrs. M. A. Oro, who has paved the way for the beautiful American lady in the territory, and whose likeness will form a component part of the composite picture to be used on the exposition medals.

In addition to the various county exhibits, A. L. Spaulding, of Chicago, who owns the Great country canalgracia farm, will furnish 50 jars of the canalgracia plant, showing it in its green state, large quantities of tubers in their native state, and tubers under cultivation, demonstrating that the tubers increase more from three times in size and contain from 12 to 14 per cent more tuber acid under cultivation. Considerable leather tanned from the product of the plant will also be shown. Mr. Spaulding has let a contract for planting 500 acres more of the canalgracia tubers, having demonstrated the success and value of the plant in New Mexico soil, beyond doubt. This is destined to become an important factor in New Mexico enterprises.

The A. T. & S. F. Ry. company is arranging to make an excellent display of pictures of New Mexico scenes, each 3½ x 5 feet in size. The road will grant free transportation for exhibits and is doing everything possible to encourage and promote the enterprise. It will also distribute 50,000 pamphlets on climatic conditions and the general resources of New Mexico.

The bureau of immigration is having 60,000 pamphlets printed at the New Mexican office for free distribution, which will make a total of 200,000 pamphlets and folders, dealing with New Mexico institutions and conditions, that will be placed before the public. They will result in great good and will attract thousands of people to the territory. This was demonstrated at the Tennessee Centennial exposition where 10,000 copies of a profusely illustrated special edition of the New Mexican were distributed. The papers were eagerly grabbed by visitors to the grounds, and the result was that many people have visited the territory and invested money on the strength of the representations. The territory cannot receive too much advertising and the resources merit all of the wonderful things said of them.

The mineral exhibit from the territory in general comprises over 30 tons of gold, silver, lead, copper, zinc, iron, platinum and other ores. The minerals are shown in all their various forms, from sulphides to crystallization. It will

be very instructive to mineralogists, metallurgists, mining men and investment seekers. Precious stones and gems, including turquoises, garnets, amethysts, opals, blood stone, pebbled crystal, etc., will be shown in all their various forms and colors, both in the cut form and matrix.

At Omaha all arrangements have been completed and space, shelving, show cases, etc., arranged for. Great praise is due Mr. Leeson for the masterly manner in which he has handled the arrangements. He will have exclusive charge of the New Mexico exhibit on the exposition grounds and desires to inform New Mexico residents that the latch string will always be found hanging on the outside. Special days will be observed during the exposition, such as "Apple day," "Peach day," "Grape day," etc., and the New Mexico products will be placed in competition with the fruits grown in other localities. Mr. Leeson is also arranging for a special day to be devoted to New Mexico and to be known as "New Mexico day."

It is feared by some that the present war will prove derogatory to the exposition, but those in charge feel different about the matter. It is contended that the 6,000,000 people who attend the coast watering places annually, the 5,000,000 people who reside at and a short distance inland from the coast, as well as the 600,000 who cross the ocean annually, will be forced to seek the mountains during the warm season, and will naturally visit the Omaha exposition coming or going, as they will take advantage of the low rates offered by the railroads on account of the exposition. The seaside hotel managers have notified the public that they will remain closed this year and agents of the various railroads are working in the east, urging people to come to New Mexico, Arizona and Colorado.

Mr. Leeson requests the people of New Mexico who are sending exhibits, to load them prior to May 7 and notify the railway agents. All exhibits are supposed to arrive in Omaha between the dates of May 7 and 12.

The contributions from the various counties will materially aid in promoting New Mexico's prosperity and will have a tendency to induce thousands of homeseekers and investors to visit this region of salubrious climate and boundless resources.

MEETING OF EXPOSITION COMMISSION. The Transmississippi exposition commission met this morning at 10 o'clock. Present, President Prince, Secretary Curran, Treasurer Day and members.

Executive Commissioner Leeson made a report as to the progress in gathering exhibits and also as to conferences with the exposition authorities in Omaha. Commissioner McLaughlin reported a few collections of minerals being arranged in Cerrillos, San Pedro, Golden and Dolores.

By invitation and request Mrs. Wallace, representing the woman's department, was present and consulted with the board on various points.

The following resolution was unanimously adopted: Resolved, That Mrs. Wallace and Mrs. Llewellyn, the New Mexico representatives of the woman's department of the Transmississippi exposition be requested to co-operate with the commission, and especially to interest themselves in the collection of the educational and antiquarian exhibits, and those from charitable and from correctional institutions.

The executive committee consisting of the president, secretary and treasurer was appointed, to sit when the board is not in session. A good deal of routine business was transacted and bills approved.
